Who are we and how do we help businesses access cheaper & greener energy?

Empowering Businesses with Sustainable Energy

An Introduction to Shawton Energy

Who are we?

Shawton Energy Ltd (SEL) is a leading provider of bespoke fully funded solar energy solutions for businesses across the UK. With a deep understanding of the unique energy challenges faced by different industries, we specialize in delivering tailor-made solar installations that meet the specific needs of our clients. Our expertise spans from initial consultation and design to installation, maintenance, and ongoing support, ensuring that our clients receive a comprehensive, end-to-end service. Our customers can choose to either invest in these solutions themselves or use our Power Purchase Agreement (PPA) to take advantage of Shawton Energy funding the project.

As part of the Shawton Group, which was established in 1986, SEL has quickly established itself as a trusted name in the energy sector. Our team of seasoned professionals brings together decades of experience in renewable energy, project management, and business strategy, making us well-equipped to handle projects of any scale and complexity.

At the end of 2023, 50% of SEL was acquired by Lazard Asset Management (LAM), a global investment business and bank. Established in 1848, Lazard has long held a preeminent position in the global financial marketplace. LAM is a subsidiary and asset management arm of Lazard Frères & Co. LLC. The ultimate parent company of LF&Co., Lazard Ltd., is publicly traded on the New York Stock Exchange.

Lazard SPI was established in 2021 and is based on a partnership between LAM's existing capabilities and the established expertise of the SPI investment team. The LSPI investment professionals have worked together at LAM and in previous roles, and benefit from the support of the LAM institutional investment platform. The LSPI investment team has extensive experience in the UK and European infrastructure, partnering with management teams, and growing infrastructure companies in an efficient and mutually beneficial way. Lazard SPI have committed to investing £250m into funded renewable energy projects on behalf of SEL and work hand in hand with the organisation to further develop the business and enter new energy markets.

LAZARD

Why Choose Shawton Energy?

Tailored Solutions

Every business is different, and so are their energy needs. We work closely with our clients to develop custom solar solutions that fit seamlessly into their operations. Whether it's a rooftop installation for a warehouse or a large-scale solar farm for industrial use, our solutions are designed to maximize efficiency and return on investment.

Expertise and Experience

Our team comprises industry veterans who are experts in both solar technology and business strategy. This dual expertise allows us to not only install solar systems but also provide valuable insights into how businesses can optimize their energy usage, achieve compliance with environmental regulations, and leverage renewable energy as a competitive advantage.

End-to-End Service

From the initial consultation to ongoing maintenance, Shawton Energy provides a full spectrum of services to ensure the success of every project. Our dedicated support team is always on hand to address any concerns, optimize system performance, and ensure that our clients reap the maximum benefits from their solar investment.

Zero upfront investment

Through utilising our Power Purchase Agreement (PPA) option, businesses no longer need to make upfront investment. Shawton Energy invest and the business purchases the energy at a fixed rate much lower than the grid price over a contract term – typically 15-25 years.

Sustainability and Savings

Investing in solar energy with Shawton Energy is a win-win for businesses. Our solutions are designed to deliver significant cost savings on energy bills while also contributing to a reduction in carbon emissions. This dual benefit supports both the financial and environmental goals of our clients, making sustainability a smart business decision.

A True Solution Approach

We don't just offer solar solutions. When we assess your business, we'll also consider solutions such as electric vehicle charging or batteries to complement the solar. And for large energy users that have high demands but don't have the space we'll look at larger scale, off site, fully funded solar farms.

Join the Energy Revolution

As the UK moves towards a more sustainable future, Shawton Energy is proud to lead the charge, helping businesses of all sizes harness the power of the sun. By partnering with us, your business will not only gain access to cutting-edge solar technology but also the expertise needed to navigate the complex energy landscape. Together, we can create a brighter, more sustainable future for your business and the planet.

Let Shawton Energy be your trusted partner in this journey towards sustainability. Embrace the power of solar, reduce your energy costs, and enhance your corporate reputation with our expert solutions. Contact us today to learn how we can help your business achieve its energy goals.

Our Board

Our board is made up of 4 members, 2 from Shawton Energy and 2 from Lazard Investment with an equal 50% share between both organisations.

Jamie Shaw
Managing Director

Jamie is the Managing Director of Shawton Energy and has overseen the growth and success of the business. He has a passion for the energy sector and has spent the last two decades working in this area as well as in structural engineering. He now brings all the expertise he has gained over that period, to the clients he works with at Shawton Energy..

Daniel Stewart
Operations Director

Our Operations Director, Daniel, joined us in early 2022 following more than two decades of experience within the engineering & construction industry, designing and managing multi discipline engineering teams and operatives. He has extensive design and project management experience and has worked on projects ranging from small refurbishments to multi-million pound data centres.

Robert Wall
Head of Sustainable
Private Infrastructure

Leading our partnership with Lazard Asset Management, Robert provides more than 20 years of experience growing private market investment portfolios, investing in infrastructure and renewable companies, and delivering major engineering projects. He has developed investment strategies, grown teams internationally, invested in private infrastructure companies across various sectors, and has been a non-executive director of operating companies in Europe, the UK and Australia.

John Creswell
