

CASE STUDY

AMRC

Installed in
1
Week

Annual
reduction of
9
Tonnes
of CO₂ emissions

29,295
kWh
Annual Energy
Generation

32
kWp
Array output

We installed a 32kWp rooftop Solar PV system at AMRC, delivering a fast, efficient installation completed within just one week. The system will enhance the site's energy efficiency, providing an annual carbon reduction of 8,783kg while helping to lower ongoing electricity costs.

THE PROCESS

The installation was completed quickly and seamlessly, ensuring minimal disruption to daily operations while enabling the site to begin generating its own electricity immediately.

THE RESULT

AMRC can now benefit from lower electricity costs and generate 29,295kWh of clean energy every year, demonstrating a clear commitment to sustainability and Net Zero targets.
