Array output

We installed a 75.03kWp rooftop Solar PV system at The Westminster Hotel, delivering a fast, efficient installation completed within just two weeks. The system will enhance the site's energy efficiency, providing an annual carbon reduction of 66,180kg while helping to lower ongoing electricity costs.

THE PROCESS

The installation was completed quickly and seamlessly, ensuring minimal disruption to daily operations while enabling the site to begin generating its own electricity immediately.

THE RESULT

The Westminster Hotel can now benefit from lower electricity costs and generate 72,213kWh of clean energy every year, demonstrating a clear commitment to sustainability and Net Zero targets.
